HAVANA:

International Jazz Plaza Festival 2026

If Cuba were the only country in the world, Earth would be known as the music planet. That's why global celebs and jazz aficionados flock to legendary Cuba like pilgrims to Mecca for the Havana International Jazz Festival. Sensuous Cuba is a nation of intense rhythms, colors, emotions, aromas, and flavors. What travelers remember most is its ubiquitous pulsating music – and the passionate, friendly islanders who make and revel in it.
